AUDIO PRO C20 WiFi Wireless Multiroom Speaker - AirPlay2 - Google Cast - Spotify Connect - Bluetooth - HiFi
Colours: Black, Grey, White

The complete solution for both music and tv.

[FULL DESCRIPTION]

C20

This active stereo speaker is the obvious choice when you need a speaker to work equally well when watching movies on your TV as listening to music. You do not need to have two different systems to meet these two needs – the C20 will take care of both tasks for you, in one single compact solution.

190 W of power makes you experience the movie sound effects and really sense your favourite music throughout your whole body. The speaker delivers a rich and fullbodied HiFi experience, with powerful and heavy bass to get the party started.

The C20 can be part of a multiroom system by joining other speakers via AirPlay 2, Google Cast or Audio Pro’s multiroom system. The speaker is compatible with all audio apps, Spotify Connect, Tidal Connect, and has Bluetooth 5 built in. Connect your TV with ARC for easy control from the TV remote.

This speaker has a RIAA amplifier built in. Meaning you are able to play music from your turntable directly into the speaker, without the need for a separate amplifier. You are also able to restream music to other Audio Pro speakers you have connected to a multiroom system.

The wooden cabinet painted in either soft satin white, stylish grey or classic black blends in naturally with your home. The fabric front is fixed by magnets and can be easily removed for a more modern look, if this is your preferred design. You have the option of two very different looks.

Streaming services available: Amazon Music, Deezer, iHeart Radio, Napster, Qobuz, QQ Music, Spotify, Tidal, Tuneln, VTuner and many more via Google Cast and AirPlay 2.

TOP 4 FEATURES:

Great sound quality for both music and movies.

One solution to meet both needs with excellent performance in both areas.

Compatible with AirPlay 2, Google Cast, Spotify Connect, Tidal Connect and Audio Pro Multiroom system.

With the built in RIAA amplifier you are able to play music from your turntable directly into the speaker.

Excellent TV-compatibility and user friendliness with ARC. tunes in different rooms, you decide.
